Any monies due the applicant or student shall be refunded within 45 days of formal cancellation by the student or, formal termination by the school. In the case of an official withdrawal, the date the student notifies the school of termination of enrollment in the program is the official drop date. In the case of an unofficial withdrawal, the last date of attendance will be utilized as the drop date, even in the case of failure to return from approved leave of absence. The school monitors for unofficial withdrawals at least every 30 days.
3. For students who enroll in and begin classes the following schedule of tuition adjustments is authorized. Refund calculations are based on scheduled hours and

Return to Title IV Refund Policy

A Federal Pro-Rata Refund Policy will be used for all students' participation in the Title IV financial aid program, as well as Non-Title IV. The procedure for calculating the amount of Title IV program funds a student has earned upon withdrawal is listed below. The student is first dropped from enrollment in the Academy's student management program, which prompts a Return to Title IV calculation. To complete a Title IV refund calculation, the student management system utilizes auto-populated student information, requiring the administrator completing the calculation to enter dates regarding the start of the payment period, drop date, and date of determination, as well as funds that could have been disbursed, if applicable, and charges for the associated payment period. The student management system utilizes the information entered by the administrator, as well as information in the student's profile to calculate Title IV funds earned by the student upon withdrawal from the program. For a school required to take attendance, the required date of the refund is determined by counting from the date the withdrawal was determined; however, for clock hour schools, the refund is calculated based on the student's last date of attendance. Title IV funds are returned in the following order: Unsub, Sub, Plus, and Pell grants. A post-withdrawal disbursement will be made if a student has eligibility for the Title IV funds. Conditions under which a student may be owed a disbursement of Title IV funds post-withdrawal include, the creation of a credit balance after institutional charges are paid.

1. Enrollment time is defined as the time elapsed between the actual starting date and the date of the student's last day of physical attendance, or in the case of an approved leave of absence, shall be the earlier of the scheduled date of return from the leave of absence or the date the student notified the institution that the student will not be returning. Any Title IV funds due to be returned if unearned or disbursed to the student post-withdrawal shall be refunded within 45 days of formal cancellation by the student or, formal termination by the school. The process for determining the withdrawal date for a student is as follows: In the case of an official withdrawal, the date the student notifies the school of termination of enrollment in the program is the official drop date. In the case of an unofficial withdrawal, the last date of attendance will be utilized as the drop date, even in the case of failure to return from approved leave of absence. The school monitors for unofficial withdrawals at least every 30 days.

2. This policy applies to all terminations for any reason, by either party, including student decision, course or program cancellation, or school closure; regardless of whether or not the student has actually started training. If a student (or in case of a student under legal age, his/her guardian) cancels his/her enrollment and demands his/her money back in writing within 3 business days of the signing of an enrollment agreement or contract, all money collected by the school shall be refunded. The

postmark on written notification will determine the cancellation date, or the date said information is delivered to the school administrator/owner in person. This policy applies regardless of whether or not the student has actually started training. The conditions under which Title IV program funds would be required to be returned include if the student did not complete 60% of the payment period, therefore not earning all Title IV aid disbursed for the student in the period.

Job Placement

Roger's Academy is primarily an institution of learning and cannot guarantee employment or job placement to all of its graduates. The Academy will provide counsel and advice to all students concerning available employment and will assist graduates of Roger's Academy in finding employment and/or employment options. Our course is designed to address generally known pre requisites for employment.

Housing

Roger's Academy of Hair Design neither owns nor operates housing facilities; however, we can aid students in finding suitable housing options.

Dress Code

At Roger's Academy professional dress is required. Students are required to wear all black; pants, skirts, dresses and/or black tops. Solid black, non-see-through tights/leggings may be worn with long shirts/skirts that approach mid-thigh and cover bottom. Denim, in any color, is not permitted per state regulation. No hooded sweatshirts or jackets. No head coverings. Students are also required to wear closed toe shoes. Additional dress code guidelines are provided in orientation.

Advising

Roger's Academy staff offers advice on several issues, personal as well as academic, to our students as needed. Professional resources are available upon request in the administrative office.

Leave of Absence Policy

Students may take more than one leave of absence within a 12-month period, if the total number of days of the leaves of absence does not exceed 180 days. All requests for a Leave of Absence must be submitted in advance in writing, including the reason for the leave and student signature, unless unforeseen circumstances prevent the student from doing so. Roger's Academy may grant an LOA to a student who did not provide a

request prior to the unforeseen circumstance; in this instance the school will document the reason for its decision and obtain the request at a later date and establish the start date of the approved LOA as the first date student was unable to attend. In order for a leave of absence to be granted the school must have reasonable expectation that the student will return from the LOA.

Subsequent leaves of absence could be granted for unforeseen circumstances such as jury duty, military reasons, birth of a son or daughter or placement of a son or daughter with the student for adoption or foster care, need to care for the student's spouse, or a son, daughter, or parent, if the spouse, son, daughter, or parent has a serious health condition; and serious health condition that makes the student unable to function as a student.

Periods during which a student has formally requested and received a leave of absence will not be considered in calculating satisfactory progress. A leave of absence will extend the student's contract period and maximum time frame by the same number of calendar days in the leave of absence. The student granted an LOA will not be assessed any additional charges because of a requested LOA. The contract extension is documented in one of two ways: 1. Changes to the enrollment agreement will be initialed by all parties; or 2. An addendum to the enrollment agreement must be signed by all parties (student and school) and retained in the student file. A student will be withdrawn if an unapproved LOA is taken and/or does not return by the expiration of an approved LOA. The withdrawal date for the purposes of calculating a refund will be the student's last day of attendance. A student granted an LOA that's meets the above-mentioned criteria is not considered to have withdrawn, and no refund calculation is required at that time.
